

## APLS Body Guard Chem Shroud

is a premium body bag that minimizes the risk to service providers by isolating the remains of victims who were exposed to Chemical Warfare Agents (CWA's).

APLS Body Guard Chem Shroud features a revolutionary, multi-layered design – an inner chamber for chemical containment and a rugged outside shell equipped with a fluid-proof zipper for strength and integrity. The inner chamber features a highly absorbent core treated with surface-active ingredients that control chemical and biological agents as well as bacteria-laden body fluids.

APLS Body Guard Chem Shroud is manufactured with high performance Coretech® backing, thermal seals and finished edges. Available with and without reinforced padded handles, APLS Body Guard Chem Shroud works as a self-contained portable litter or in conjunction with a standard body bag for transporting victims.

### FEATURES :

- Active agent adsorbs chemical warfare agents
- Complete concealment capability through zippered top
- Vapor and fluid leak protection
- Fluid-proof and airtight zipper
- Leak proof backing and sealed edges
- Contains up to 6.7 liters of blood and bodily fluid
- Single layer barrier material provides lightweight, easy-to-use product
- Supports 440-480 lbs. (200-218 kg), wet or dry

### PART NUMBER .

With Handles:  
Part MRS-XAPLSV-3691CW-3

Without Handles:  
Part MRS-XAPLSV-3590CW-3

### SPECIFICATIONS :

- Finished Product Size: 33" x 78" (83.8 cm x 198.1 cm)
- Target Absorbency (H<sub>2</sub>O): 6,700 grams (6.7 liters)
- Weight Capacity: 450 lbs. (205 kg)
- Pad Thickness: 0.080" (0.25 cm)
- Pad Weight: 10 lbs. (4.55 kg)
